COLLECTION

THREE CENTURIES OF FINE FURNITURE

Through three generations Morris Furniture has been manufacturing the highest quality furniture. Founded by Harris Morris, often innovative and always functional we built our business supplying Cunard liners and prestigious hotels such as Gleneagles with fine cabinet furniture.

During the war years we manufactured wood components for Lee Enfield and developed fighter components culminating in the prototype of the helicopter blade. Following the war, Harris's son, Neil Morris, concentrated on high quality domestic and contract furniture becoming known as the father of modern furniture production. Today, Robert Morris, grandson of the founder steers the company to manufacture domestic furniture for the UK market.

Regency is a relaxed classic design of natural timbers in rich and varied hues with prominent knots and graining. The distinctive Saltire motif runs through every piece in the collection, while internally illuminated display units and drawer boxes with dovetail joints are special features of the range. The rustic-style metal handles, again with cross motif, are a delightful touch. A perfect collection for today's traditional or modern home.

Furniture Care

Morris Furniture selects its raw materials with extreme care, to enhance the natural characteristics of the wood. We cannot guarantee that any one piece of furniture will exactly match another – indeed, any variations in grain or colour are part of the natural beauty of wood and over time the colours and shades will blend with the patina of age. To prolong the good looks of your furniture, avoid prolonged exposure to sunlight and move your display objects around from time to time. To clean, wipe over with a damp cloth and use a dry clean cloth to remove any remaining moisture. Do not place in direct sunlight or immediately adjacent to a heating appliance. All fabrics used in the manufacture of these products are tested in accordance with the Furniture and
